

What is Mango Languages?

Mango is an online language learning system available to you through your local public library. Mango offers access to 70+ foreign language courses and 19 English courses taught completely in the user's native language.

Mango is free to all library patrons and can be accessed anywhere with an internet connection. Each lesson combines real life situations and audio from native speakers with simple, clear instructions. The courses focus on the four key elements of language learning: vocabulary, pronunciation, grammar, and culture.
