A Guide to Using LibPAS

LibPAS is the tool utilized by Public Library Services Branch (PLSB) in collecting the information for the **Public Library Survey and Annual Report**. It is an easy-to-use, entirely Web-based utility developed by Counting Opinions. No special software is required on your computer, and the system should work with any recent Web browser, including Firefox, Chrome, and Edge.

Overview

About the Public Library Survey and Annual Report

In order to be considered eligible for operating grant funding, library boards must complete and submit the Public Library Survey and Annual Report to PLSB by February 28 of each year.

The Public Library Survey and Annual Report is comprised of two separate parts:

1. **The Public Library Survey:** gathers public library information and includes questions about board members, meeting dates, service points and library hours. This information is used to compile a provincial directory of public libraries, to produce mailing lists and to determine compliance with provincial library legislation and regulations. Therefore, please provide current (i.e., as of the date you are filling in the report) information in this section.
2. **The Annual Report:** captures public library activity during the previous calendar year. This report documents the service activity of public library boards in Alberta and provides information on the performance of public libraries. Data on specific performance measures will be collected to produce the Public Library Statistics for the province of Alberta.

The survey and annual report is required by the Minister under the [Libraries Regulation](#), sections 11, 15 and 20.

Steps to Completing Your Public Library Survey and Annual Report

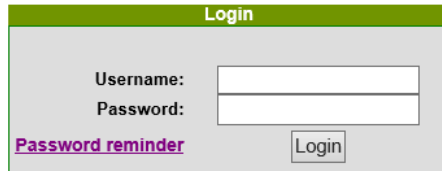

Completing the Survey and Annual Report involves several steps, only one of which is entering the data online. The steps include:

1. Collect information required to complete the Survey and Annual Report. Check the [PLSB website](#) for information and resources, and be sure to review the **Reference Key** (formerly called "Companion Guide") for detailed descriptions of each of the fields contained in the online forms in LibPAS.
2. Enter the data in LibPAS as required, print out drafts as necessary, and review the data that has been entered. When you are comfortable that the data is entered properly, present the draft to your library board for approval.
3. Once the report has been approved by the board, enter the date in the appropriate field on the report. Submit the report in LibPAS and print the report for your records. When the report is submitted PLSB automatically receives the report.

Getting Started

In December the library manager/director (or other designated respondent) will receive an email announcing when the form is ready to use. The message will include the link to access the [LibPAS website](http://ab.countingopinions.com) (<http://ab.countingopinions.com>), as well as the username and password to be used. Bookmark the site so that you can return to it in the future, and note that **passwords are only changed when there is a new respondent**.

Welcome to the Public Library Services Branch LibPAS portal for the Alberta Public Library Survey and Annual Report

If you have not received your **username** and **password**, please use the **Password reminder** link above. If you have not received it after a few minutes, check your junk email folder. If after that you still have not received your login information, please email jen.anderson@gov.ab.ca.

Supporting documents (e.g. the Reference Key) are available on our [website](#).

In order to be considered eligible for funding, library boards must complete and submit this report by February 28.

If you have any questions about the Survey and Annual Report, please contact [Jen Anderson](#) (780-415-0294, toll-free by dialing 310-0000 first).

The annual report is filed by the library board pursuant to the [Libraries Regulation](#). By approving, the Board accepts the report, certifies its essential accuracy and transmits it to Alberta Municipal Affairs, Public Library Services Branch, in accordance with the above regulation. Personal information contained in the report will not be disclosed except for use by Alberta Municipal Affairs.

Figure 1. The LibPAS portal for Alberta.

Logging In

To log in, enter the username and password you received by email (if you do not have a username/password, or if it is not allowing you to log in, email jen.anderson@gov.ab.ca). After logging in, you will be taken directly to the **data input form** for your survey and annual report.

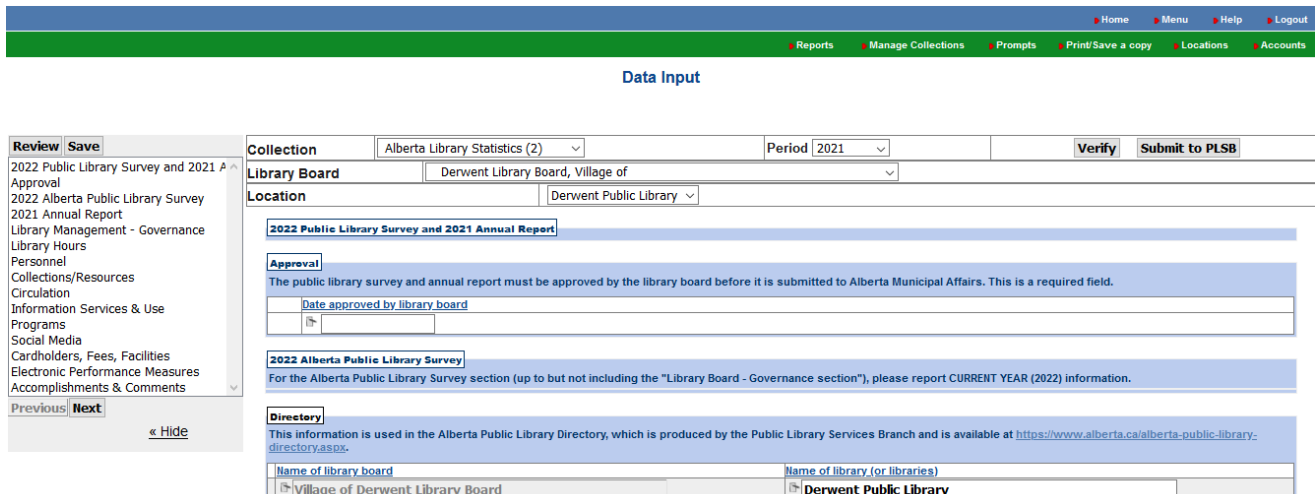

Figure 2. Data input screen after logging in.

You should be presented with a screen similar to Figure 2 showing the data input form for your library board for the reporting period. The period should always reflect the previous year, e.g. in January 2021 the reporting period is 2020. You can view historical data by choosing a different year from the *Period* drop down menu.

Next, you may need to choose your location from the *Location* drop down menu. If your location is not selected (either manually or by default), you will not be able to enter any data.

The screenshot shows a web form with three main sections:

- Collection:** A dropdown menu with 'Alberta Library Statistics (2)' selected.
- Library Board:** A dropdown menu with 'Derwent Library Board, Village of' selected.
- Location:** A dropdown menu that is open, showing 'Derwent Public Library' as the selected option. Other options include '-- Location --' and 'Derwent Public Library' (highlighted in blue).

 Below the Location dropdown, there is a blue bar with the text '2022 Public Library Survey and 2021 Annual Report'.

Figure 3. Selecting your location.

Navigating the Data Input Form

There are features to navigate and complete the data input form. Data is stored and saved as it is entered.

There are two ways to navigate through the data input form:

The screenshot shows a navigation panel on the left side of the form. At the top are 'Review' and 'Save' buttons. Below them is a scrollable list of sections:

- 2022 Public Library Survey and 2021 / ^
- Approval
- 2022 Alberta Public Library Survey
- 2021 Annual Report
- Library Management - Governance
- Library Hours
- Personnel
- Collections/Resources
- Circulation
- Information Services & Use
- Programs
- Social Media
- Cardholders, Fees, Facilities
- Electronic Performance Measures
- Accomplishments & Comments

 At the bottom of the list are 'Previous' and 'Next' buttons. Below the list is a '« Hide' link.

Figure 4. List of sections, displayed on the left side of the data input form

1. **Select the name of the section from the list on the left side of the form.** You can hide the list by clicking on the *Hide* link. To restore the section navigation box, click the chevron symbol (>>). Use the *Next* and *Previous* buttons to proceed through the data input form, one section at a time.
2. **Select the Review button to display all the sections on one page.** Proceed through each field on the Data Input form by selecting the target field using your mouse or by using the Tab or Enter key to proceed through fields one at a time.

To see the **definition** for any field in the form, click the hyperlinked name of the data input field to reveal more information. (For more information see Indicator Notes (Definitions) on [page 8](#)).

The screenshot shows a data input field with the label 'Print Volumes' circled in red. Below the label is a text input box containing the number '1,000'.

A complete list of definitions for all data fields is available by clicking the *Prompts* button at the top right corner of the form.

Entering Data

You do not have to complete the sections sequentially. Nor do you need to complete individual sections before moving on to other sections.

The data input form supports various features to ensure the quality and integrity of the data. Throughout the form, you may encounter the following:

- **Select lists** – limited set of options is presented for selection in a drop down list format. Please select the appropriate response from the selection list.
- **Pre-filled values** – data input fields may already contain data, especially when data for previous periods is available and the data often does not change from period-to-period, e.g. the library’s address. Please always review prefilled data to ensure it is still correct.
- **Auto-calculated values** – for certain fields LibPAS will automatically calculate the value for you. These fields are greyed out and you cannot adjust them directly.
- **Previous period values** – numerical value displayed to the right of the data input field for your reference.
- **Data not available/not applicable** – a small number of fields have these options for you to indicate such. If you are unable to put a check in the box, make sure there is not a value (e.g. “0”) in the associated field. If there is, deleting the value should allow you to put a check in the box.
- **Comment fields** – these boxes may be expanded by clicking in the bottom right corner and dragging it to the desired size (horizontally and/or vertically).

Please provide a brief explanation (if applicable)

Figure 5. .Expanding the comments field.

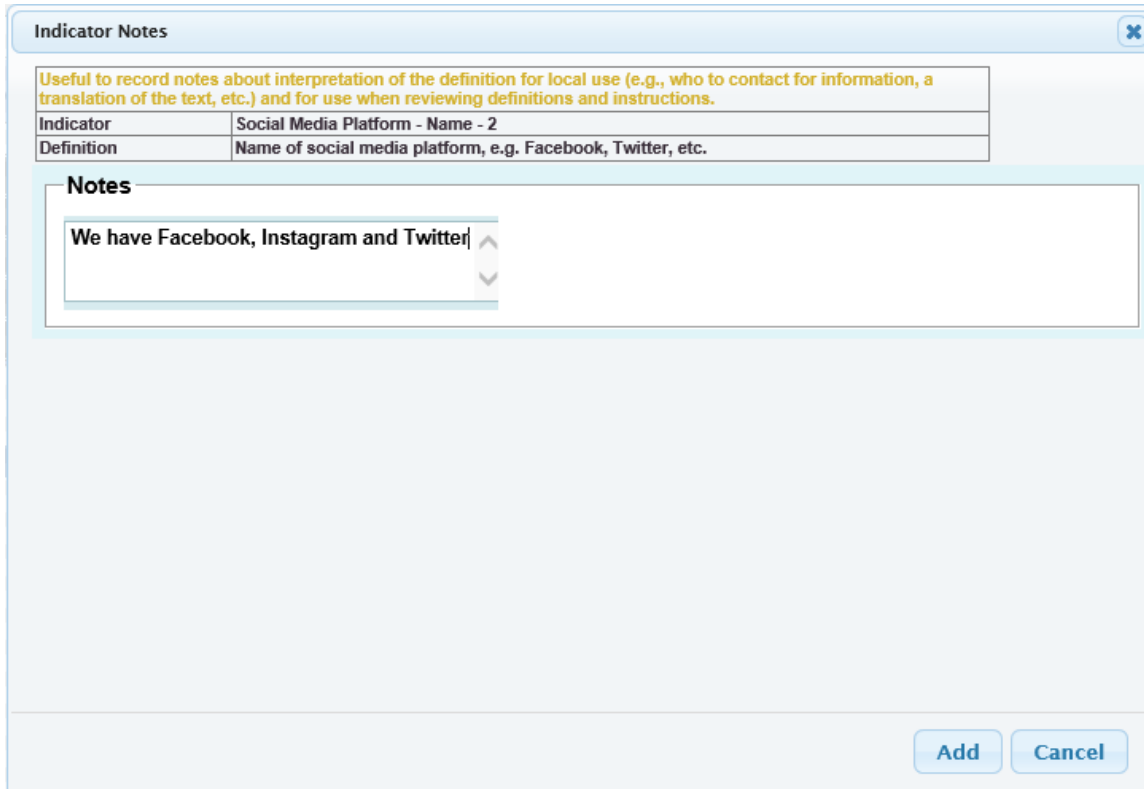

LibPAS has the ability for respondents to annotate or explain their data through the use of notes. There are two types of notes:

1. **Indicator notes** – typically used to capture information about the field and its definition
2. **Performance Indicator (PI) Value notes** – typically used to provide explanatory information about the data entered into the field

More information about the two types of notes is contained in the following sections.

Indicator Notes (Definitions)

By selecting the hyperlinked name of any data input field, you can view more information, including a complete definition of the data field, the expected value and other details.

The image shows a pop-up window titled "Indicator Notes" with a close button (X) in the top right corner. Inside the window, there is a yellow text box with the following text: "Useful to record notes about interpretation of the definition for local use (e.g., who to contact for information, a translation of the text, etc.) and for use when reviewing definitions and instructions." Below this is a table with two rows: "Indicator" with the value "Social Media Platform - Name - 2" and "Definition" with the value "Name of social media platform, e.g. Facebook, Twitter, etc." Underneath the table is a section titled "Notes" containing a text input field with the text "We have Facebook, Instagram and Twitter" and a vertical scrollbar. At the bottom right of the window are two buttons: "Add" and "Cancel".

Indicator	Social Media Platform - Name - 2
Definition	Name of social media platform, e.g. Facebook, Twitter, etc.

Notes

We have Facebook, Instagram and Twitter

Add Cancel

Figure 6. Indicator notes pop-up. Enter your own notes in the Notes field.

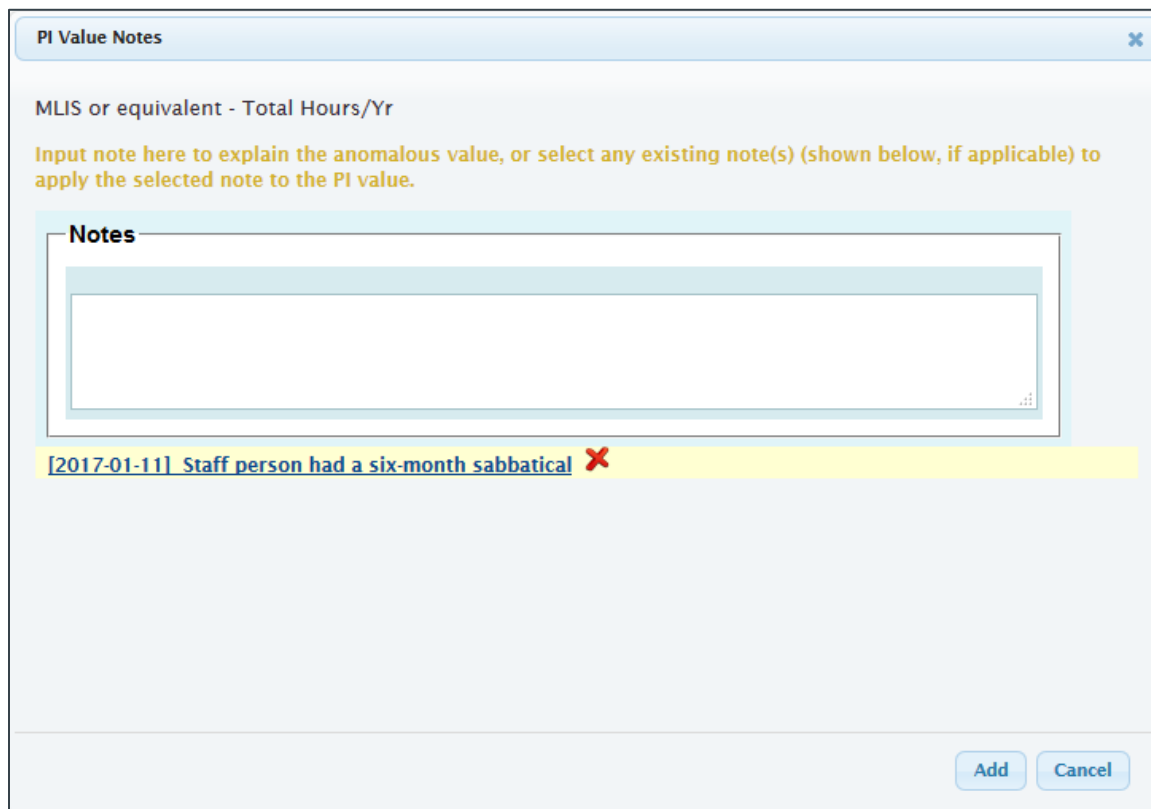

Respondents can enter notes that are helpful to them in understanding the definitions provided. For example, the notes might explain where the data comes from, what has been included in the data in the past, or anything else that would assist respondents in entering data in future years for consistency.

You can record as many notes as required. These notes are for local use only and will not be shared with other respondents.

Each note is date and timed stamped for ease of reference.

Performance Indicator (PI) Value Notes

By clicking on the *Add Notes* icon () next to a field, explanations can be added to the data values.

PI Value Notes

MLIS or equivalent - Total Hours/Yr

Input note here to explain the anomalous value, or select any existing note(s) (shown below, if applicable) to apply the selected note to the PI value.

Notes

[2017-01-11] Staff person had a six-month sabbatical 

Add Cancel

Figure 7. PI Value notes pop-up. Enter your own notes in the Notes field.

These notes are designed to help you explain or interpret the data submitted, particularly when the data is considered unusual or abnormal. For instance, when the data represents a significant change from the values previously reported.

Providing explanations is useful to those responsible for understanding the data submitted.

If there is data in a Notes field, the icon colour will change from grey to orange. Notes can be deleted by clicking the red **X** beside it.

Submitting your Survey and Annual Report

When you have completed entering in your data, click the Verify button at the top right of the screen next to the Submit to PLSB button. This will run a check that will notify you of any issues with the form.

Collection	Alberta Library Statistics (2)	Period	2021	Verify	Submit to PLSB
Library Board	Derwent Library Board, Village of				
Location	Derwent Public Library				
Verified!					

Figure 8. Data has been verified and there are no issues with the form.

Collection	Alberta Library Statistics (2)	Period	2021	Verify	Submit to PLSB
Library Board	Derwent Library Board, Village of				
Location	Derwent Public Library				
1. Date Report Approved by Board : A value is required!					
2022 Public Library Survey and 2021 Annual Report					
Approval					
The public library survey and annual report must be approved by the library board before it is submitted to Alberta Municipal Affairs. This is a required field.					
Date approved by library board					
<input type="text"/>					

Figure 9. An issue has been detected within the form.

Once all data has been entered, verified and approved by the library board, click the **Submit to PLSB button**. This will lock the form, and you will see a padlock icon in the top right corner:

Submitted 
--

Figure 10. The report has been submitted and is now locked.

Once the form is submitted and locked, you can no longer modify data for that period, nor can you unlock the form. If a change is required, contact PLSB to unlock the form for you. If the library board has already approved the Survey and Annual Report, please ensure that the board is aware that data has been changed.

Saving and Printing

In order to save an electronic copy of your survey and annual report, you use the same function as printing. Click on the *Print/Save a copy* link at the top right hand corner of the page in the green menu bar.

A window will appear with three options at the top – Print/save a copy, Download PDF and Download PDF with Breaks.

Print/save a copy – clicking this will automatically bring up your print screen to print the report as it is displayed.

Download to PDF – clicking this will bring up a PDF version that you can save and that will display and print as one continuous document.

Download to PDF with Breaks – clicking this will bring up a PDF version that you can save and that will display and print with each section (e.g. personnel, circulation, programs) as a separate page.

If you would like a paper “scratch” copy of the data input form to work with, click on the *Print/Save a copy* link in the top right hand corner in the green menu bar before you begin. This will allow you to print a blank copy. Note that you will still need to enter your data into the online form in order to submit your Survey and Annual Report.

Reports

LibPAS users have access to report templates. These reports are “canned” reports, meaning that the template is static and cannot be changed.

The reports bring back **raw data**. This is data that has been entered into LibPAS by the respondents and **has not been verified**. It is not considered official data, and does not constitute the public library statistics published by PLSB.

Accessing & Running Reports

To access the report templates, click on *Reports* in the top right corner in LibPAS.

This will bring you to the **Manage Reports** screen. Next, click on the *Report Templates* tab:

Figure 11. The Manage Reports screen. Click on Report Templates.

The list of available *Report Templates* will now appear. In the future, will be possible to develop other templates, but for now the report is set to bring back all annual report data except for comment fields. Click on the report name (e.g. *RAW DATA – all fields*) to run the report.

Figure 12. Available report templates.

This will bring you to the *Report Settings* screen. Please leave the *Collection* as Alberta Library Statistics. From here you can choose the *Period* you wish to run the report for. Note that LibPAS does not have data prior to 2010.

Figure 13. The Report Settings screen.

The blue section of the screen below the *Report Settings* options indicates all the locations and fields that will bring back data when you run the report.

All **locations** that are currently active and contain data are selected as default. You cannot deselect locations by clicking on the locations hyperlink. When the results are exported to Excel you can delete the locations you do not want the data for.

All **Indicators** (fields) listed are also selected by default. You can customize the results by unchecking the fields you do not want data for at this time.

When you are ready, click **Run**.

The report can take a few minutes to generate, and will automatically display the data in a web version. Click on the Excel icon at the bottom of the results to download the spreadsheet.

When you click on the *Excel* icon you may receive a prompt about the file format and extension not matching. You can click *Yes* to continue.

Click on *Enable Editing* at the top of the spreadsheet to sort and view the data.

If you are saving the spreadsheet, it will default to save as an XML Spreadsheet 2003. You may wish to change it to an Excel Workbook file extension.
